

Family Communities offer clean, quiet settings to raise your family. Each of our parks are full of kids, including the families of our on-site managers.

We provide a safe environment by screening for sexual predators, drug charges, and violent offenders. We maintain 24 hour video surveillance at all of our locations and work closely with local law enforcement for your protection.

Convenient locations minutes from I-4 and I-75 with doublewides, apartments, and houses available.

We have units that feature garden tubs, screened patios, central A/C, private storage and single suites that include electric and all utilities.
