ARE YOU

- a remote employee?
- considering a job that requires a short commute?
- wanting a smart in-town housing solution?

WE GOT YOU!

Prefer to own and live in a Tiny Home? Manufactured Home? Or RV?

WE GOT YOU!

We welcome many kinds of approved, small living structures. Generally speaking, we offer parking for Tiny Homes, Park Model RVs, newer HUD-Manufactured Homes, RVs, and even Airstreams and converted Sprinter vans on a case-by-case basis.

At Sea Breeze, you will only ever pay two things: a monthly community fee, and (for some spaces), an electric bill. The community fee* starts at \$850, and the electric bill (if you have one!) depends on you!

WANT TO LEARN MORE?

*Our community fee covers lot lease, common-area landscaping, general grounds maintenance, management staff, and the overarching costs of keeping the community afloat like real estate taxes, utility infrastructure, and insurance. It also includes water, sewer, garbage, recycling, yard waste, and Wi-Fi.
